Outbreak of Encephalitis in Bihar

571. SHRI S.S. AHLUWALIA: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that a large number of people, mostly the children, had died in Muzaffarpur and other parts of the State of Bihar due to outbreak of Encephalitis in apidemic from in the recent months;

(b) if so, what are the details thereof; and

(c) the steps Government have taken or propose to take to eradicate and control encephalities in Bihar?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (DR. C. SILVERA): (a) and (b) An outbreak of suspected encephalities affecting mostly children between the age group of 2 to 12 was reported from Muzaffarpur District of Bihar. Out of 440 cases, 180 deaths we are recorded between 20th May and 9th July, 1995. Preliminary investigations carried out by the National Institute of Virology (NIV) Pune under the Indian Council of Medical Research (ICMR) rules out Japanese Encephalities to be the cause of deaths, which would be available on receipt of the final report from the ICMR. Active surveillance and proper case management yielded good results and no fresh case has been reported since then.

(c) Both the Central and State Government are already seized of the matter and the Govt. of Bihar has requested the Central Govt. to assist them in upgrading the laboratory facilities.
